## NEMA 12

### Nema type 12 Two Door Enclosures

#### Application

NEMA Type 12 Two Door Enclosures are designed for use in areas that need protection from dust, dirt, oil and water.

#### Construction

Made from Paint Grip Galvanized Steel in 12 and 14 gauge. The seams are continuously welded with no holes or knockouts. A tee handle keyed lock are provided for securing the gasketed cover. A continuous hinge is provided. The enclosures are to be painted. The covers are also sealed by a neoprene gasket held in place by an oil resistant adhesive. External feet are furnished for mounting. These enclosures can also be ordered with an optional back panel.

#### Finish

The Standard finish is ANSI Grey inside and out.

#### Industry standards

These screw cover enclosures conform to the standards set by the National Electrical Manufacturers Association for Type 12 (water tight and dust tight), Type 12 ( industrial use) and Type 13 ( oil tight and dust tight) enclosures. Also conforms to JIC standard EGP-1-1967.
