NEMA 12

Nema type 12 Two Door Enclosures

Application

NEMA Type 12 Two Door Enclosures are designed for use in areas that need protection from dust, dirt, oil and water.

Construction

Made from Paint Grip Galvanized Steel in 12 and 14 gauge. The seams are continuously welded with no holes or knockouts. A tee handle keyed lock are provided for securing the gasketed cover. A continuous hinge is provided. The enclosures are to be painted. The covers are also sealed by a neoprene gasket held in place by an oil resistant adhesive. External feet are furnished for mounting. These enclosures can also be ordered with an optional back panel.

Finish

The Standard finish is ANSI Grey inside and out.

Industry standards

These screw cover enclosures conform to the standards set by the National Electrical Manufacturers Association for Type 12 (water tight and dust tight), Type 12 (industrial use) and Type 13 (oil tight and dust tight) enclosures. Also conforms to JIC standard EGP-1-1967.
